

Kirstenbosch Botanical Gardens - Western Cape Outing - September 2021

This informal meet was simply fantastic! It was the very first meet up for YWP members in the Western Cape. We went to Kirstenbosch National Botanical Gardens here in Cape Town and it was really awesome to meet group members in person. We had some great bird sightings including bronze mannikins, a male chaffinch (!) and a really really up-close encounter with some Egyptian geese (including small goslings)

There was awesome mist on the mountains and we saw beautiful plantlife as well

Overall we had a really good time! Here are some pics!
